EQUALING OPPORTUNITY

Product flyer#1 V01PF-B19

This solar powered Bluetooth car kit also comes with a solar panel that will charge the device automatically. Thanks to the transparent holder and suction cups, you can leave it on the windshield to receive maximum sunlight so you'll never have to recharge or even move the device, how convenient! For those cloudy days, you can also power the Bluetooth car kit directly through the car's cigarette lighter socket or by USB.

At a Glance...
